Summary

After two years of intensive preparatory classes, I joined ENSEEIHT (Toulouse INP), a selective French public engineering school ("Grande École"), in its Computer Science and Telecommunications department. I am particularly interested in programming. I am looking for a 6- to 8-week operator internship between June and August 2027.

Projects & Experience

Energy Efficiency Optimisation of a Mechanical System

TIPE – supervised research project 2025 – 2026

- Developed a miniature elastic-powered car.
- Identified the main sources of energy loss and optimised the system, raising efficiency from 66% to 77%.

Suguru Puzzle Solver in C

Preparatory class project 2024 – 2025

- Implemented grid representation, display and validation.
- Solved puzzles with brute-force, greedy and backtracking algorithms: 8×8 grid solved in under a second.

Hotel-Restaurant

Summer job – Le Panoramic, Saint-Claude Summer 2022

- Dishwashing, cleaning and dining-room set-up for breakfast service.

Education

Engineering Degree (Master's level) – 1st year

ENSEEIHT, Toulouse Since Sept. 2026

- Computer Science and Telecommunications department.
- Intended 2nd-year track: HPC & Big Data, or System Architecture & Networks.

Grandes Écoles Preparatory Classes – MP2I / MPI

Lycée Carnot, Dijon 2024 – 2026

- Ranked 338th in the CCINP national competitive entrance exam.

French Baccalaureate – with Honours (Mention Bien)

Lycée Pré-Saint-Sauveur, Saint-Claude 2024

- Specialty subjects: Mathematics and Physics-Chemistry.
- Average grade: 15.81/20.

Interests

- Club football – 3 years (high school)
- Exploration and puzzle video games
- Reading novels
